

COMPANY PROFILE

2024

Our purpose is to provide world-class water filtration solutions that ensure access to clean and safe water globally.

Respected Customers, Over the past year, the world has faced significant economic disruptions driven by rising inflation and geopolitical tensions, which have impacted global growth.

Aquaro Group is keenly aware of how these events have affected businesses and communities worldwide. Our foremost priority remains the well-being of our employees, and we have taken proactive measures to safeguard their health and security. Despite these challenges, we are steadfast in our commitment to delivering top-quality products and services to our valued customers.

Mr. Hiren Shah

CEO - Aquaro Group

A Brief Story About Aquaro Group

ABOUT US

Aquaro Group is a global leader in water filtration solutions, dedicated to delivering high-quality products that ensure access to clean, safe water. We specialize in manufacturing and exporting innovative filtration systems for domestic, commercial, and industrial use. With a commitment to customer satisfaction, quality, and sustainability, we partner with businesses worldwide to help them succeed through superior water purification technology.

FAQ

1. Are you a manufacturer?

Yes. One of our Company has manufacturing unit. We are the India's leading manufacturer of high quality filter components of residential filter.

2. Can you offer sample to check the quality?

We offer FREE SAMPLES based on freight collect.

3. Sample leadtime?

Existing items: Within 7-10 days.

4. Can we use our logo/brand?

Of course. Private Label is absolutely welcome. We also have Designing Dept. to help you get your own logo design and packing design free of charge.

5. What's the order lead time?

Order lead time has relations with the order quantity, order models and packaging. Generally, it takes about 15-20 days to get the order ready.

6. Why should I choose Aquaro Group?

A. Choosing Aquaro Group means partnering with a global leader committed to providing innovative, high-quality water filtration solutions.

B. We have strict QC system for raw materials, ongoing production and the final products.

C. Our expertise ensures reliable, long-lasting products that meet the unique needs of various industries. We prioritize customer satisfaction, offering tailored solutions backed by sustainability and cutting-edge technology.

D. With a strong global network, Aquaro Group delivers exceptional service, empowering businesses to succeed through superior water purification systems.

PRODUCT PORTFOLIO

1 Aquaro PP (PP Sediment) Filter

Aquaro PP (PP Sediment) Filter effectively removes dirt, rust, and sediment from water, enhancing overall filtration. Made from durable polypropylene, it's designed for long-lasting performance, making it an ideal choice for both domestic and industrial water purification systems.

Specification :

Size	10" Length x 2.5" Diameter
Net Weight	255 g
Material	Polypropylene
Life	Approx 6,000 L
Fitting Type	Push Fit
Filter Type	Welded
Package	36 Pcs in 1 Master Carton Box

2

Aquaro UDF (Pre-Activated Carbon) Filter

Aquaro UDF (Pre-Activated Carbon) Filter is designed to absorb chlorine, odors, and organic impurities from water. Its high-quality activated carbon ensures effective filtration, improving taste and odor. Ideal for pre-treatment in both residential and industrial water purification systems.

Specification :

Size	10” Length x 2.5” Diameter
Net Weight	370 g
Material	Polypropylene
Life	Approx 7,000 L
Fitting Type	Push Fit
Filter Type	Welded
Package	36 Pcs in 1 Master Carton Box

3

Aquaro T33 (Post-Activated Carbon Block) Filter

Aquaro T33 (Post-Activated Carbon Block) Filter is designed to remove residual chlorine, odors, and organic contaminants, enhancing water taste and purity. Its compact design ensures efficient post-filtration, making it perfect for both domestic and industrial applications.

Specification :

Size	10” Length x 2.5” Diameter
Net Weight	375 g
Material	Polypropylene
Life	Approx 7,000 L
Fitting Type	Push Fit
Filter Type	Welded
Package	36 Pcs in 1 Master Carton Box

4

RO (Membran Housing)

Aquaro RO (Membrane Housing) is engineered to securely hold reverse osmosis membranes, ensuring optimal filtration performance. Made from high-quality, durable materials, it provides a reliable and leak-proof housing for efficient water purification in both residential and industrial systems.

Specification :

Size	10” Length x 2.5” Diameter
Net Weight	300 g
Package	40 Pcs in 1 Master Carton Box

Key Feature :

- It includes 1/4” & 1/8” thread fit fittings
- Double O-ring Membrane Housing
- 100% virgin material
- Strong Structure, High Pressure Resistance & No Leakage

5

Aquaro MINERALISER (Inline Mineral Cartridge)

Aquaro MINERALISER (Inline Mineral Cartridge) enhances purified water by replenishing essential minerals like calcium and magnesium, improving taste and health benefits. “NON-TRANSPARENT AVAILABLE”. Designed for use in water filtration systems, it ensures balanced, mineral-rich water for residential applications.

Specification :

Size	10”L x 2.0” D
Life	6500 L
Desired Flow Rate	up to 20 LPH
Material	Polypropylene
Net Weight	380 g
pH Value	3+ of input water pH, up to 7
Add Minerals	Calcium and Magnesium
Packing	36 pcs in 1 Master Carton Box

6

Aquaro ALKALINE (Alkaline Stone Filter Element)

Aquaro ALKALINE (Alkaline Stone Filter Element) is designed to enhance water by balancing pH levels and adding essential minerals. It transforms regular water into alkaline water, promoting better health and hydration, making it ideal for residential and commercial filtration systems.

TYPE A

TRANSPARENT

TYPE B

NON-TRANSPARENT

Specification :

Size	11" Length x 2.5" Diameter
Life	11,000 L
Material	Polypropylene
Fitting Type	Push Fit
Filter Type	Welded
Add Minerals	Zinc, Copper, Calcium, Magnesium, Sodium, & Potassium
Package Content	Filter 5 ml pH testing liquid User Manual Lab Report
Packing	36 Pieces in 1 master carton box

7

Aquaro GAC

Aquaro GAC (Granular Activated Carbon) Filter is designed to efficiently remove chlorine, organic compounds, and unpleasant odors from water. Its granular structure provides a large surface area for optimal filtration, ensuring cleaner, fresher water for domestic and industrial use.

Specification :

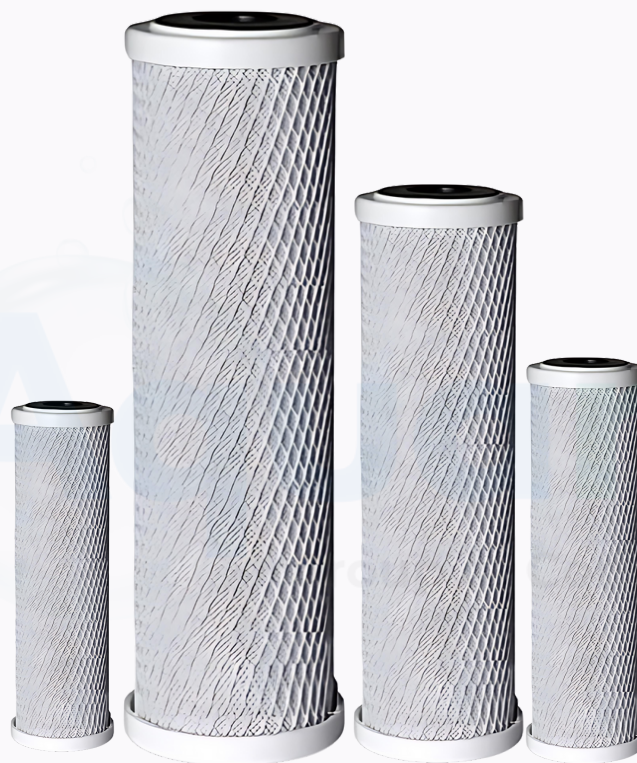

Size	10" Length x 2.5" Diameter
Net Weight	370 g
Material	Polypropylene
Life	Approx 7,000 L
Fitting Type	Direct
Package	36 Pcs in 1 Master Carton Box

8

Aquaro CTO (Activated Carbon Block)

Aquaro CTO (Activated Carbon Block) is designed to effectively remove chlorine, chemicals, and odors, enhancing water taste and purity. Its dense carbon structure ensures superior filtration, making it ideal for both residential and industrial water purification systems.

Specification :

Size	10” Length x 2.5” Diameter
Net Weight	375 g
Material	Polypropylene
Life	Approx 7,000 L
Fitting Type	Direct
Package	36 Pcs in 1 Master Carton Box

9

Aquaro Pre-Filter Housing

Aquaro Pre-Filter Housing is designed to provide reliable protection for filtration systems by housing sediment and carbon filters. Constructed from durable materials, it ensures a secure and leak-proof environment, enhancing overall water quality and extending the lifespan of downstream filtration components. Ideal for both domestic and industrial applications.

Specification :

Size	10" Length x 3.5" Diameter
Net Weight	Starting from 450 g
Package	20 Pcs in 1 Master Carton Box

Key Feature :

- It includes 1/4" thread fit fittings
- Double O-ring Membrane Housing
- 100% virgin material
- Strong Structure, High Pressure Resistance & No Leakage

10

Aquaro UF 4',10'

Aquaro UF 4" and UF 10" filters utilize advanced ultrafiltration technology to effectively remove bacteria, viruses, and suspended solids from water. Their compact design ensures easy installation and maintenance, making them suitable for both residential and commercial applications, while providing safe, clean drinking water.

Specification :

Size	4", 10" Length x 2.5" Diameter
Life	Approx 6,000 L
Material	Polypropylene
Fitting Type	Push Fit
Filter Type	Welded
Packing	40 Pcs in 1 Master Carton Box

11 Aquaro Membren (11 layers)

Aquaro Membrane (11 layers) is engineered with advanced filtration technology to ensure superior performance in removing impurities, contaminants, and dissolved solids from water. Its multi-layer design enhances durability and efficiency, making it ideal for residential and industrial reverse osmosis systems, delivering high-quality, purified water consistently.

Key Feature :

- 100 GPD
- for up to 2500 TDS
- 98-98.5% Stable Rejection
- 11 Layers with 16-18 LPH Flow

12

Aquaro Membren (13 layers)

Aquaro Membrane (13 layers) is crafted with cutting-edge filtration technology to maximize impurity removal, ensuring exceptional water quality. Its advanced multi-layer design enhances efficiency and durability, making it ideal for both residential and industrial reverse osmosis systems, delivering reliable and pure drinking water.

Key Feature :

- 100 GPD
- for up to 3500 TDS
- 98-98.5% Stable Rejection
- 13 Layers @20-22 LPH FLOW
- HIGH TDS RO MEMBRANE

VISION

Our vision is to be the world's leading provider of innovative water filtration solutions, ensuring clean, safe water for all. We aim to empower businesses globally with sustainable, reliable, and high-quality purification technologies.

MISSION

01

Customer-Centric Focus

We strive to exceed customer expectations by delivering high-quality, reliable water filtration products tailored to their unique needs.

02

Innovation and Technology

We continually innovate, incorporating the latest technologies to offer cutting-edge filtration solutions that ensure water safety and purity.

03

Global Expansion

Our mission is to expand globally, fostering strong partnerships with importers and dealers to provide top-tier water purification systems.

04

Sustainability and Responsibility

We are committed to sustainability, implementing eco-friendly practices that protect the environment while delivering efficient water treatment solutions worldwide.
